PROFILE

Entry-level data analyst with a Computer Science major and Data Science minor. Experienced in using SQL, Python, Excel, and Tableau to clean data, find patterns, and present findings through dashboards and reports. Seeking a data analyst role where clear analysis supports business decisions.

EDUCATION

D. Y. Patil College of Engineering & Technology (DYPCET) 2023 – 2027

B.Tech in Computer Science (Major), Data Science (Minor) *CGPA: 7.00 / 10.00*

TECHNICAL SKILLS

Analytics & BI: SQL, Microsoft Excel, Tableau, Power BI, Data Visualization, Dashboards, Business Insights

Python for Data: Pandas, NumPy, Matplotlib, Scikit-learn

Analysis Methods: Exploratory Data Analysis, Data Cleaning, Data Wrangling, Statistical Analysis, Data Modeling

Databases: MySQL, SQLite, MongoDB

Programming: Python, SQL, Java, C++, JavaScript

Other: FastAPI, REST APIs, Flutter, Git, GitHub

PROJECTS

AI Text-to-SQL System Final Year Major Project

Python, FastAPI, SQL, NLP

- Built a tool that turns plain-English questions into SQL, letting non-technical users pull data from a database without writing queries.
- Wrote validation checks that catch incorrect or unsafe queries before execution, improving the reliability of returned results.
- Handled query execution, error handling, and result formatting so outputs are clean and ready to read.
- Created separate Admin and User views with role-based access to control who can query what.

Billing & Invoice Generator Mobile Application

Flutter, Dart, Local Storage

- Developed an app for invoice creation, inventory tracking, and GST-based bill calculation for sellers and customers.
- Structured customer, seller, and stock records in persistent storage for accurate, repeatable reporting.

CERTIFICATIONS & TRAINING

- **Data Analytics Job Simulation** — Deloitte Australia, via Forage (Tableau, Excel) 2026
- **Data Analysis with Python** — IBM, Cognitive Class (Pandas, NumPy, Scikit-learn) 2026
- **Mini Data Analytics Bootcamp, 4 days** — MLSA (Excel, Python, SQL, Power BI) Aug 2025
- **Data Science Workshop, 2 days** — Techfest 2025, IIT Bombay 2025
- **Python with DSA Bootcamp, 61 hrs** — Krish Naik, Udemy Feb 2026

ACHIEVEMENTS & LEADERSHIP

- **E-Cell, DYPCET:** Led video and promotional content for entrepreneurship events including Eureka, Illuminate, and the Inspire Program.
- **Photography Club, DYPCET:** Coordinated club activities and photography workshops for students.
